

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as indicated hereafter. It is believed that the following amendments and additions add no new matter to the present application.

In the Specification:

Please substitute the following amended paragraph for the paragraph starting on p. 5, line 16 as follows:

Fig. 4 is a diagram of the programmable logic module according to the present invention. In the programmable logic module 200, a first printed circuit board 50 has a downloading unit 52, and a socket 54. The downloading unit 52 is electrically connected to the first printed circuit board 50. The first printed circuit board 50 has a power pin region 64 and a plurality of I/O pin regions 62. The power pin region ~~[62]~~64 is isolated from the I/O pin regions ~~[64]~~62, each of the power pin region ~~[62]~~64 and the I/O pin regions ~~[64]~~62 has a plurality of pins.
